

UNLOCK STUNNING IMMERSIVE EXPERIENCES

Escape with Yulio

Combine the powerful rendering capabilities of Enscape and the powerful presentation tools inside Yulio. Breathe life into your designs, give more context, and compress your project into a shareable URL with Yulio.

Why Enscape + Yulio?

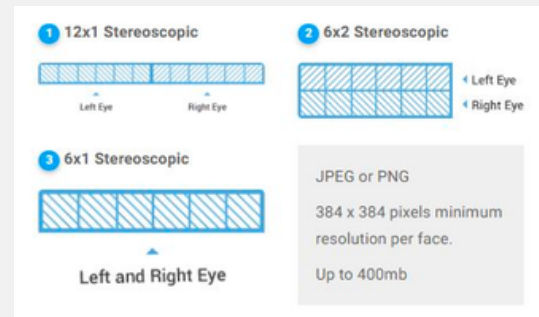

- ✓ **Easiest Way to Share**
Each Yulio project generates a unique URL making sharing a breeze. No longer will you need to convert or zip your files - copy and paste your link.
- ✓ **Unlimited Enhancements**
Add as many enhancements and hotspots to give greater context to your projects. Choose from 70+ features to communicate clearly seamlessly.
- ✓ **Accessible Virtual Portfolios**
Create impressive standalone virtual portfolios and make the most of your projects. Build out your library of explorable projects to attract more potential clients.
- ✓ **Seamless Integration**
Yulio works with Enscape files - no need for conversion or changes. Just upload, enhance, and share your projects.

See How Easy it is Using Enscape + Yulio

1 Upload

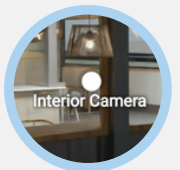

After finalising your project, render with Enscape and create a cubemap.

Here are some upload requirements for a cubemap:

2 Enhance

Add in navigational hotspots, floorplans, and more. Drag and drop to give greater context and crucial info to your clients.

3 Share

Send your finalized project via:

- Unique URL
- QR code
- Or text message
